MATT ███

San Francisco, USA

STAGE & LIVE EVENT EXPERIENCE

Moonslug • *DJ & event host* • soundcloud.com/mooonslug   *January 2021 - present, in San Francisco, CA*

- I host recurring local parties with a growing network of DJs to organically create my own music community.
- Venues include bars, homes, backyards, boats, in parks, in the woods, with and without electrical hookups.
- I set up all of my own audio visual equipment and program DMX light scenes for my Chauvet GigBar.

Outside Lands • *CleanVibes volunteer*   *October 2021, in San Francisco, CA*

- I volunteered in an organized waste mana███████████   person music festival over 2 days.
- I educated attendants about waste divers██████   ██ he ground, and maintained compost and recycling stations.

Burning Man • *Camp organizer*   *August 2019, in Black Rock Desert, NV*

- I worked with a small team to plan, build, and strike a shelter to house and protect our camp of 20 people over 7 days off-grid in the Nevada desert.
- I planned and practiced the build & strike using hand & power tools (gusseted canvas, steel poles, power impact drivers, wrenches) to ensure efficient setup on-site.

Columbus Academy • *Theater student, stage crew, lighting director*   *September 2008 - June 2012, in Columbus, OH*

- I built and deconstructed sets with hand & power tools (compressor-powered nail guns, screwdrivers, socket wrenches, miter/table/jig/circular saws), as well as transitioned sets during shows.
- I designed, rigged, programmed via DMX, and operated the lights for our school plays, musicals, and assemblies.

SOFTWARE EXPERIENCE

Curebase • *Chief Technology Officer*   *September 2018 - March 2021, in San Francisco, CA*

- I was the first hire at a clinical research startup. I hired and led a team of 4 software developers as we grew from 0 users to become a profitable business running over 15 clinical trials with thousands of enrolled study participants.

Driver • *Software Engineer*   *March 2018 - September 2018, in San Francisco, CA*

Netflix • *Senior Full Stack Developer*   *April 2017 - December 2017, in Los Gatos, CA*

Coinbase • *Employee #25, Software Engineer, Head of Growth*   *June 2014 - March 2017, in San Francisco, CA*

- I designed and developed for all parts of our web client (including critical backend systems and new user-facing growth features) as we grew from 1M to 5M users. I personally reduced time-to-first-purchase by 70%.

TryBTC • *Co-founder, acquired by Coinbase*   *July 2013 - September 2014, in Palo Alto, CA*

spotifymusicvideos.com, a personal app using Spotify and Youtube APIs to make music video playlists (2019)

EDUCATION

Stanford University • *Computer Science*   *September 2012 - June 2014, in Palo Alto, CA*
